

MES Asmabi College, P Vemballur, Kodungallur

Department of Computer Application

Add-on Course (2023-24)

ARTIFICIAL INTELLIGENCE USING PYTHON

Programme Outcome

Programme Outcomes (POs)

The course aligns with the following program-level outcomes:

- 1. Computational Thinking – Develop problem-solving skills using Python programming and AI methodologies.**
- 2. Data-Driven Decision Making – Analyze large datasets to make informed decisions using AI models.**
- 3. Technological Adaptability – Gain exposure to industry-relevant AI tools and frameworks.**
- 4. Professional Growth – Enhance employability by learning AI applications in real-world scenarios.**
- 5. Innovation & Research Orientation – Encourage creativity in AI-based projects and research activities.**
- 6. Teamwork & Collaboration – Develop AI solutions collaboratively using modern development environments.**
- 7. Ethical AI Practices – Understand the ethical considerations and implications of AI technologies.**
