

Programme Title: Talk on ‘Understanding Patents: A gateway into innovations’

Date: 7th December 2023

Venue: Seminar Hall

Attendees: UG, PG & Research students (Total number of participants: 42)

Programme Objectives:

- The talk on patent was organized to delve into the significance of patents in innovation, technology, and business.
- The event aimed to educate participants on the importance of patent protection, its impact on various industries, and the process of obtaining patents.

Report of the Programme

IPR Cell of MES Asmabi College and Department of Botany together organized a talk on the topic – ‘Understanding Patents: A gateway into innovations’. The resource person was Dr, Ansar EB, Assistant Professor, Department of Chemistry, MES Asmabi College, P. Vemballur. He has a patent in his credit and well-known about the process of patent filing procedures. The session provided a comprehensive introduction to patents, explaining what constitutes a patent, its legal significance, and the types of innovations eligible for patent protection. The patent application process was also discussed by the resource person and it focused on the practical aspects of filing a patent application. It covered the steps involved, from initial idea conception to final submission, highlighting key considerations and common pitfalls. Moreover, several case studies were presented to illustrate successful patent strategies and their impacts.

Participants actively engaged in discussions throughout the event, posing questions and sharing experiences related to patent issues in their respective fields. The interactive nature of the sessions enhanced learning and networking opportunities.

The talk on patent successfully achieved its objectives of increasing awareness about patents and fostering a deeper understanding of their role in innovation. Attendees provided positive feedback on the event's organization, content relevance, and the expertise of the speakers.

Conclusion:

The talk on patent served as a valuable platform for knowledge exchange and this talk not only educated participants but also inspired them to explore new avenues for protecting and commercializing their intellectual property.
