

Report on Photography & Videography Lighting Workshop at PhotoFest India 2024

Venue : **Adlux International Convention Centre, Angamaly, Ernakulam**
Date: **June 14, 2024**

Profile: 37 Students from B.Voc digital film production

The Department of Digital Film Production at MES Asmabi College attended a Photography Workshop as part of PhotoFest India 2024. Organized by the All Kerala Photographers' Association, the event was held on June 14, 2024, at the Adlux International Convention Centre in Angamaly, Ernakulam. The workshop, titled "Photography and Videography Lighting," was led by industry experts Aseem Komachi and Aju Eapen, with sponsorship from Godox. A total of 37 students from the Department of Digital Film Production at MES Asmabi College actively participated in the workshop.

The session ran from 2:00 PM to 5:00 PM and centered on enhancing skills in photography and videography lighting. Topics covered included lighting setups, techniques for achieving optimal exposure,

and how lighting can be used effectively to tell visual stories. The facilitators provided hands-on guidance to attendees, giving them the opportunity to work directly with professional lighting equipment and understand its practical applications.

The workshop proved to be an enriching experience for students, allowing them to apply theoretical knowledge in a real-world setting. By the end of the session, students gained a deeper understanding of lighting techniques and were better equipped to implement these skills in their film and photography projects. This experience not only enhanced their technical capabilities but also boosted their confidence in handling professional lighting setups.

Outcome:

The Photography and Videography Lighting Workshop provided a valuable practical experience that will significantly benefit the students in their academic and professional pursuits within digital film production. The exposure to industry practices and expert guidance has set a strong foundation for their future projects.
